

This background is designed for use with the Lowel Ego light. By attaching supplied background paper, you can create a sweep - a background without a visible corner.

1. Unpack the background & paper

2. Fold out support stand on back.

3. Choose paper color & attach to clips.
Tape front ends of paper down if curling is too great.

4. Place object, & arrange lighting.
Experiment to achieve best results.
Keeping object towards front end of sweep will minimize shadows

5. Finished photo.

Lowel Ego is a product of Lowel-Light, the Academy Award Winning World Leader in Location Lighting.
